

Texas E-Cigarette and Tobacco Awareness Program Online Training Courses

Frequently Asked Questions

This frequently asked questions (FAQs) guide is designed to help answer common questions about the E-Cigarette and Tobacco Awareness Program's (ETAP) referral and prevention courses.

General Questions

Q1: What is the Texas E-Cigarette and Tobacco Awareness Program

A1: This program is the state's official vaping (e-cigarette) and tobacco awareness online training and is intended for students in grades 6-12 and features a referral course and a prevention course. Students who complete the training learn about the history, marketing, and health risks of tobacco products, including vapes, as well as strategies to resist peer and social pressure and how they can use the information they learn in the training to live a healthy, vape free lifestyle.

To learn more about the Referral course, you can download a flyer by visiting,
<https://txssc.txstate.edu/about/programs/etap/>.

To learn more about the Prevention course, you can download a flyer by visiting,
<https://txssc.txstate.edu/about/programs/youth-school-safety/resources/online-training.html>.

Q2: Who is the REFERRAL Course for?

A2: The referral course is intended for individuals under the age of 21 who are cited for possession of tobacco products, including vapes. **This online course meets the requirements of [Section 161.253, Texas Health and Safety Code](#).**

Schools are also strongly encouraged to require students who have been referred to a type of school suspension or a Disciplinary Alternative Education Program (DAEP) as a result of their tobacco/vaping use to complete the course so they may better understand why they use and be motivated to consider quitting. Referring students to complete this course can serve as an alternative to punitive measures.

Q3: Who is the PREVENTION Course for?

A3: The prevention course is for students who are interested in learning about the harmful health effects of vapes and other tobacco products and can be completed on their own or schools can require students to complete the training as part of their vaping/tobacco prevention education efforts.

Q4: How much does the training cost?

A4: Both courses provided by the program are free.

Course Overview

Q5: How long does the course take to complete?

A5: The course should take 3-4 hours to complete. All modules within the course are not required to be completed at one time. Progress will be saved, and the user will be able to resume the course after the last saved completed quiz questions.

Q6: Will I receive a certificate of completion?

A6: Yes. After the user has passed the post-test and completed all course evaluation questions, a certificate of completion will be sent to the user via the email provided in the user profile. The certificate will include the full name of the user, as well as a unique completion code for the course which is generated by the learning portal.

Access and Availability

Q7: Is this training ADA compliant?

A7: Yes. All interactive features included in both courses are ADA compliant.

Q8: How can I access the REFERRAL Course?

A8: The referral course can be accessed by visiting, <https://sslp.txssc.txstate.edu/referral> or scanning the QR code.

Q9: How can I access the PREVENTION Course?

A9: The prevention course can be accessed by visiting, <https://sslp.txssc.txstate.edu/prevention> or by scanning the QR code.

Q10: What devices and/or browsers are the best to use?

A10: Any computer or smart device, including a tablet or phone, can be used to complete the training. We recommend using Google Chrome, Firefox, or Safari internet browsers.

Q11: How do I enroll in the course?

A10: To enroll in the training, you must create a user account by clicking the “Course Sign Up” button on the course’s website.

Q12: Can I access the course materials after I complete the training?

Yes. You will be able to log back into the course and access all materials including your certificate of completion after you have completed the training.

Q13: Can I pause the course and return later?

Yes. The training will save your progress so you can log out and return at a later time. When you log back into the training, it will take you back to the last activity or quiz that you completed.

Q14: When I log into my School Safety Learning Portal (SSLP) account, I cannot find the training course.

If you are an adult and would like to take the ETAP Prevention and/or Referral course for informational purposes, and you already have an existing SSLP account, you will need to set up a separate user account for each of the ETAP courses you wish to take. This process requires you to set up separate user profiles, using a different email address for each one.

Support

Q15: What should I do if I encounter a problem with the training?

A15: If you experience any challenges with the training, please contact IT support through the following online form, <https://forms.txssc.txstate.edu/contact/sslp-help>.

Q16: I cannot remember my password. What should I do?

A16: If you forgot your password, you can create a new password by clicking “Forgot your password?” on the training course log in page. You will be prompted to enter your email address and then click the “Send me reset password instructions” button.

Q17: Who can I talk to if I have more questions?

A17: If you have additional questions about the training courses, please email staff at txssc_etap@txstate.edu.

Q18: If I referred a student to take the course, how can I verify the completion certificate is valid?

A18: If you referred a student to take either the Prevention or Referral ETAP course, the best way to verify completion of the course is to require the student to forward you the email he/she received from the Texas School Safety Center (txssc@txstate.edu) after completing the course. This email contains completion details such as the course completion code, and an electronic copy of the Certificate of Completion.
